TRINITY COLLEGE - On our second page will be found a most interesting letter from Trinity College, from Capt. Woodson, who was in attendance last week upon the Commencement exercises of this College. The brief description of the sermon of Bishop Marvin will be of peculiar interest to our home readers, as this eminent divine preaches in this city to-day in the dedication services of Person street church.

PROPERTY WITHOUT HEIRS-IN-FORMATION WANTED.-We have seen a letter addressed to the Secretary of State of N. C., giving information of the death of two brothers. named Lucian B. and N. S. Outlaw. They died in Texas, leaving a large property, and being unmarried and intestate it is of interest to such relatives as they may have left in North Carolina, from which State they emigrated.

The letter is from one of the same name, but very remotely connected sage of the act. with the deceased. The writer thinks there may be some in North Carolina nearer in degree than he is. Any information may be addressed to Mr. N. B. Outlaw, Mifflin, Tenn.

ASYLUM FOR THE INSANE.

The Insane Asylum of North Carolina, a cut of which we publish this morning, is located on Dix Hill, one mile west of Raleigh. It is a building of imposing exterior. The foundation is of granite and the superstructure brick, covered with a tin roof. It has a centre building 80x120 feet, 4 stories high with an observatory on top at an elevation of 110 feet from basement floor. Upon the 4th floors are water tanks of boiler plate, with a capacity of 15,000 gallons, which are refilled daily by steam power from Rocky Branch, a stream running through the grounds. From the centre, two wings extend, north and south, each 323 feet, making the entire front 726 feet. These are 3 stories high, measuring 45 feet to the attic and 40 feet in width including rooms, corridor and walls.

The flooring is of common long leaf pine of rather inferior quality. Much of the carpentering was executed from lumber material not well seasoned. The brick work was of good and bad material in about equal proportions. The walls are stuccoed on the outside and plastered inside in good style. The granite foundation by the Messrs. Colborn & Stronach was well and thoroughly done in its execution. The heating apparatus by Mr. Nason, of New York, has been superceded by later and better

The basement of the entire building is occupied by the heating apparatus, sewer pipes and air ducts. The heating and ventilation is accomplished by passing air over radiators containing steam, enter the rooms and corridors and thence through flues to the attic. The ventilation is equalized by a fan propeled by steam power. The sewerage is conveyed away by cast iron pipes, and water closet ventilation effected (though imperfectly) by connection with the main stack at boiler house in the rear. The lighting is by gas made

upon the premises from rosin. Each wing is divided into 6 wards for classification in treatment of patients. Each ward contains 20 single rooms for patients, attendants and stove rooms. The accommodations of the Institution are for 224 inmates, but by crowding to its utmost capaci-

ty it now contains 250. The first Act of incorporation of this Asyium was by the Legislature of 1848, with an appropriation of \$80,000. The success of this movement was mainly through the personal influence of the great philanthropistst Miss D. L. Dix, whose whole life has been devoted to the alleviation of the suffering of this class of our fellow-creatures, both in this and Europeon countries. Her presence and efforts every where aroused sympathy and renewed efforts in behalf of the insane. Through her efforts the Pope erected a magnificent Institution in Rome. The British minister were induced by her to correct abuses in Scotland. The Lord Lieutenant who refused to hear her was summoned by the Premier to his presence and reprimanded, and the acknowledgment of her services was wrung from reluctant lips in the House of Lords by a Peer who exclaimed: "It is to our reproach that we have been aroused to the existence of wrong, and instigated to the performance of duty in matters of charity by a foreigner; and that foreigner an American! and that American a woman: and that woman a dissenter !"

But to return from this digression. Soon after the passage of the first act the Commissioners organized by the appointment of Gov. Morehead as chairman and went to work. Appropriation after appropriation was made from time to time, and the building finally completed and filled at a cost of \$300,000, and the first patient (Andrew M. Holdenby, from Rockingham county, a Mexican war soldier) admitted Feb. 22nd, 1856, more than seven years after the pas-

SEVERE STORMS .- A metorologist in St. Louis has predicted for the month of June and until the middle of July, violent electric disturbances, &c., caused as he suggests by the equinoxes of the Planet Venus-a long way and a small object to look for a reason. The thunder storm of yesterday morning before day followed by another at half past 12 seem to confirm his prediction.

About half past one on Saturday morning the most violent thunder storm known for many years began, continuing until about 4 a. m. During the whole time the play of vivid lightning was incessant, and the detonation of deafening thunder continuous. At one time there were six terrific peals within a period of the people of the ing the lightning within half a second. We hear of no damage.

About 12 o'clock M. on yesterday another storm came up, as violent, but of shorter duration, and accompanied by a bountiful rain.

ELECTION ORDERED.-Gov. Brog. den has ordered an election to be held in Warren county on the 6th day of August, to fill the vacancy occasionfrom that county by the expulsion of J. Williams Thorne from his seat in February last. He has also ordered an election to be held at the same time in Gates county to fill the vacancy in the House of Representatives occasioned by the death of Mr. R. H. Ballard from that county.

THE TWO NEGRO LAWYERS .- We learn that we made a mistake a few morning's since in stating that the two negro applicants for license before the Supreme Court did not answer correctly a single question. A question was asked one of them, and he answered that " he did not know, thus answering correctly, We make the amende with pleasure.

ANOTHER STEAM FIRE ENGINE. The city has purchased a steam engine for the Victor (colored) Fire Company, at a cost of some \$1,700. J. H. Green, 1st Engineer of the Rescue Fire Company, visited Seneca Falls for the city and made the purchase. This will add much to the efficiency of our Fire Department.

DISABLED SOLDIERS .- Applications continue to be made to the Governor thunder storms, cyclones, tornadoes, for arms and legs from soldiers disabled during the late war, under the belief that the bill granting this relief passed the last Legislature. The bill in question passed one house but failed to pass the other, and therefore did not become a law. We state this to prevent our disabled friends in the State from putting themselves to any further trouble at this time to obtain this relief from the State officers.

CITY FINANCES .- The Board of Aldermen Friday night were engaged in considering the question of funding \$100,000 of the debt of the city, five minutes, the thunder succeed- to vote on the question some time in July, but as the Board will adopt some resolutions looking to this end to-morrow night, we will defer going into particulars until the matter is then settled.

UNIFORMING THE POLICE.-An ordinance was adopted Friday at the meeting of the Board of Aldermen authorizing the Police force of the city to be uniformed in cadet gray suits ed in the House of Representatives and Wickel, the tailor, is now engaged in furnishing the suits. The uniforming will be done at the individual cost of the policemen. Who says Raleigh is not rapidly assuming in earnest the guise of a city?

OUR STATE EXCHANGES .- We invite the attention of the reading public of North Corolina to the list of good sound Democratic papers to be found advertised in another column, representing various sections and local interests of the State. We have similar notices of others of our State exchanges in hand and will give them place in a day or two. The Conservative press of North Carolina should be well sustained.

RUTHERFORD COUNTY.

Col. Albert G. Logan was nominated by the Democrats of Rutherford at a full Convention held on the 9th inst. The Shelby Banner says that his election is pretty certain. Nathan Scoggins has announced himself as an independent Republican candidate.

THE Conservatives of Rockingham have nominated Ex-Gov. Reid and J. Turner Morehead as candidates for the Constitutional Convention. Both of these gentlemen are admirably calculated by their intelligence and prudence for the delicate duties of Constitutional reform, and we congratulate the people of Rockingham upon the appropriateness of their selection.

THE Charlotte Observer runs up the names of Z. B. Vance and Hon W. M. Shipp as candidates for the Convention, subject to the decision of a County Convention. We presume no objection will be found to gentlemen so entirely unexceptionable, and who both possess special qualifications for usefulness in the Convention. We hope the nomination of the Observer will be endorsed, while at the same time Mecklenburg has many other good names who would grace the Conservative ticket.

THE BOTTOM OUT.

The National Republican of Washington city, in its issue of the 10th inst., is a most extraordinary paper. It contains 58 pages, and its weight was so great; that the news boys took it round the city in | born till that instrument is annullwagons, being unable to deliver it in the ordinary way. Ninety eight compositors were employed eighteen hours a day for five days in getting up this edition, the whole object of which is to lay before the public the delinquent tax list. It is a fearful commentary upon the looseness of management which has permitted an accumulation of taxes for several years, and it bodes terrible distress to a people now called upon to meet their dues at the sacrifice of their property. Hardly a better evidence of distress among the middle classes can be had that they are not able to meet the alternation presented to them. Pay-day always comes along at last, and while the authorities at Washington have been indulging the citizens with costly improvements which the Government was expected to pay the necessities of the latter compel a resort at least to the tax payers.

THE FACULTY OF THE UNI-VERSITY.

We transfer to our columns an article from the Tarboro Southerner urging the claims of the Rev. J. M. Atkinson to a seat in the faculty to be appointed for the University. We suppose most of our readers will agree with the Southerner in the high character ascribed to Dr. Atkinson. The Trustees we are assured will weigh well their action, and will give this distinguished name its fullest consideration:

REV. J. M. ATKINSON.-We feel no disposition to attempt to forestall the action of the Board of Trustees of the University in regard to the choice of professors to it fill the va-rious chairs. We hope it will be bound by no sectional nor denominational bias, that it will allow no narrow minded idea to cripple its efforts in its inefficiency, but that it will soar above all prejudice of favor and consider the simple quality of merit far beyond local peculiarities and sectarian proclivities. If we look for a proud future for our beloved old University, an institution whose past history is inseparable from our nation's greatness, the fondly cherished Alma Mater of a boast of devoted sons, we must sur-round her with able conservators, a faculty ripe in scholastic learning and fully alive to the spirit of the

and fluent speaker, and above all a christian of spotless reputation, the Rev. J. M. Atkinson, of Raleigh, would adorn almost any chair he might be called to fill, and would give tone and character to any intitution to which he might be at-

We therefore hope, without presuming to dictate, that the name of this eminent divine may be brought before the meeting of the Board soon to take place, and he may be tendered one of the vacant chairs of our University.

THE PENITENTIARY.

Among the inflictions imposed upon the people by the Constitution of 1868 is the neccessity for the erection of a penitentiary. Instead of being left to the exigencies of the public demands and the discretion of the Legislature, it is made compulsory by the fundamental law. There was no escape from the obligation, because it was there in the Constitution.

Its erection is an innovation upon the ideas of the people of North Carolina, accustomed to see crime punished appropriately. It is an innovation upon the criminal code, because the existence of such an institution provided alternative punishment for offences which under the old code had other and more efficient penalties. It compels a modification of the whole criminal code to accommodate it to a system based upon the idea of confinement as a sufficient atonement for a large class of offences. And it entails an immense and enduring annual cost to the people which must be born by them to support a class who could be usefully employed if, as under the old law, they had been promptly and appropriately punished and discharged.

Is the penitentiary likely to accomplish any good purpose? Is it a reformatory institution? If it is not, then it is in that respect worse than useless, for the effect will be to sharpen the ingenuity of criminals and turn them out upon the public more dangerous than ever. Is the punishment imposed certain? Every day almost we see exercises of executive clemency, and the periods of confinement shortened so as to make punishment a nullity. Is it a terror? Nine tenths of the convicts are negroes, lost to all sense of shame, idle in liberty, and only interested in getting enough of what holds body and soul together, and feeling no burden under the restraint

Much money has been expended on the penitentiary. Much more will be spent, for it is going to be a never ceasing drain.

But it is one of the burdens of the Constitution of 1868, and must be

THE CONVENTION.

A communication from a valued friend in Davidson urges upon the press the importance of arousing the people from their lethargy. We think our friend exaggerates the amount of that lethargy. Yet his caution is to be heeded and his suggestive warning as the determination of the Radicals to defeat the measure must not be disregarded.

We make the following extracts from the communication:

"The Conservatives cannot carry the Convention as a matter of course and if this lethargy and indifference are not removed soon, it is to be fear-ed the Radical negro party will secure a majority in the Convention.

And what then? No one can tell: but it is certain the conduct of that party heretofore, gives us little reason no reason—to hope they will do anything to promote the true interests of the State.

Whatever may have been our differences of opinion heretofore, as to the policy of calling a Convention now, no sensible man has ever doubted that our Constitution needs no sensible man has ever amendment, and that a Convention is the cheapest and simplest mode of doing the work. Neither has any sensible man, who has the true in-terests of the State at heart, ever doubted that it is important to have majority of Conservatives in the convention in order to secure the right sort of a Constitution.

fact that the Radical leaders are now inspired with hope-nearly, if not quite dead before-of regaining power in the State, and that they will use, and are using effort to defeat us. I may be mistaken, but it seems to me our party is not at work in as good earnest as it should be, that our pa-pers are too silent on the subject, and do not urge the importance of a Convention-a Conservative Convention -with sufficient force and argument, and that all this threatens defeat, if

In haste.

CONVENTION. A VALUABLE WOMAN. - An editor of a Maine newspaper, having asked a lady applicant for a situation, what she could do, received the following comprehensive and characteristic reply: I can keep a house or a secret, drive a horse or a bargain, tend a post office, a store, or a baby, make a loaf of bread or a shirt, sew on buttons, mend stockings, milk a cow, wash, iron, bake, or brewis that enough for a woman to do? Then I'll decipher the copy, that puzzles you, re-write the manuscript olein and true, even if fortune but play me fair, and sphere points the way of my duty there, take editor's scissors, his office and chair! Satisfactory guarantee any day that I can do and have done all that I say (and

more too.) Arrangements are being made at Elmira, N. Y., to erect a monument to the Confederate dead, nearly 3,000 TRINITY, COLLEGE COMMENCE.

SECOND DAY'S EXERCISES. BISHOP MARVIN'S SERMON.

The Alumni Address of John R. Webster, Esq.

Wednesday, the second day of the Commencement, dawned clear, bright and beautiful, and the prospect for a large attendance of visitors more than propitious. The trains of the previous night from both the East and West added several hundred to the already over-crowded village, and by 9 o'clock every road leading to the College was the scene of a solle mass of vehicles as far as the eye could reach, and continued so until a few minutes after 11 o'clo k. The passengers by the trains repre-

sented not only every section of our own State, but South Carolina, Georgia, Tennessee, and even the far distant State of Florida was also rep-

The Trustees of the College, nearly a full representation, met at 10 o'clock or the transaction of business, Rev. Dr. Wilson, of Greensboro, President f the Board, presiding.
At 11 o'clock the chapel bell announced the hour for the regular order of the day, being THE ANNUAL COMMENCEMENT SER-

by Bishop Marvin. The doors hav-ing been opened at 10 o'clock, we found upon taking our seat at the porter's desk every seat in the body of the chapel and the three galleries not only occupied but closely packed by the efficient corps of ush ers, and extra seats being brought in and placed in the aisles. On the rostrum were seated about eighty ministers and quite a number of distingnished persons, among whom we noticed Lt. Governor Armfield, Hon. W. M. Robbins, M. C., Hon. J. M.

Leach and others. Owing to the densely packed chanel, with its seating capacity of 2,500, and fearing that some apprehension might be felt of its safety, President Craven announced to the audience that especial attention had been paid to importance of safety in the construction of the edifice, that he had thoroughly examined it since the audience assembled, and he had not the slightest cause of alarm at the ponderous weight upon the floor. All seemed satisfied and the exercises mmenced.

The morning lesson, Hagai, Chap. st, was read by the Rey. Mr. Black Hymn.

While we with fear and Hope survey." Prayer by the Rev. Dr. Wilson.

"Rock of Ages cleft for me." Bishop Marvin then came forward to the stand and said in substance: This is the occasion of the Annual Commencement Sermon and also the dedication of the newly erected chapel. The two occasions are not at all incompatible, but a happy conjunction coincident," &c., &c. He took his text from the 1st clause, 2nd verse, 18th Psalm, "THE LORD IS MY ROCK."

To attempt in our rough and untutored style even a synopsis of the remarks of the distinguished Divine, would destroy the effect perhaps of the finest and most powerful sermon ever delivered in the State, except to those so fortunate as to hear it .-Through the kindness of the Chief Marshal, Mr. Burkhead, we were given a table in a few feet of the speaker, and it was an honest endeavor "to take" asynopsis of his remarks for publication in the NEWS, but the impressive tone of his first senter 'as a metaphor, the rock yields well and I suppose no object in nature is more impressive than the rock"— we were thrown off our guard and at once became one of the 2500 auditors, an enraptured listener therefore, we say to put in print, in our own language, from "rough hewn" aken under circumstances as above stated, would be an injustice, nay, a crime which we dare not perpe-

trate. For more than an hour the Bishop held his audience, we may say spell-bound by the force of his powerful argument, and plain, unpretending, unostentatious eloquence, severa times during the discourse, we can safely say there was not in the large audience an eye that was not in tears, and it was with difficulty that several old ladies could restrain from the old fashion custom of shouting. We heard an enthusiastic christian lady remark at the dinner table, "sister W.-I., never heard such words from the lips of man before, and if it had been at Bear Swamp Churh I'd been shouting till now.' good old christian lady expressed the sentiment of every one that heard

the sermon. The great reputation of Bishop Marvin as one of the most impressive pulpit orators in America preceded him, to North Carolina, and the people naturally expected great things of him, but we speak by authority when we say that in the annual commencement sermon at Trinity College, Bishop Marvin exceeded the expectations of even his warmest ad-

Bishop Marvin concluded his sermon with a strong and

EFFECTIVE APPEAL FOR HELP to Trinity College. He stated that President Craven informed him that it required \$4000 to pay off the balance due on the grounds and magnificent Chapel in which "we are now worshipping." He desired to raise this amount from this audience then present. Calling to his aid several of the ministers and laymen, he posted them in the aisles, and galleries, and from the pulpit asked who would give \$200 towards this amount. Several responded. Then he fell to \$100 and 50, 25, and 10. The result in less than ten minutes time footed up \$4600, which was afterwrrds increased to \$5100. We said nothing, but thought he was nearly as good a

'beggar'' as a preacher. THE DEDICATION SERVICES

being next in order, President Craven advanced to the left of the stand occupied by Bishop Marvin and said.
"On the the part of the trustees of Trinity College I present to you this chapel to be dedicated to the worship of Almighty God." The dedicatory prayer was offered up by the Bishop after which the dedication hymn was sung by choir. Thus ended the morning exercises.

THE ALUMNI ADDRESS. At 8 o'clock P. M., the vast assemblage again repaired to the halls to attend the meeting of the Alumni association and to hear the address of the chosen orator.

Precisely at the appointed hour the Alumni having previously formed in the old chapel, marched in regular order by the upper east door of the new chapel, and took seats on the rostrum. As near as we could estimate there were 250 present of the Alumni and 1500 persons in the chapel. Mr. J. R. Webster, editor

of the Reidsville News was introduced as the orator.

Mr. Webster is a graduate of the

class of 1869 and is therefore quite a young man, but old enough to maryoung man, but old enough to marry and anxious on the subject. With so much youth and beauty before him he had the advantage of such inspiration as this combination would naturally tend, and from the easy, composed and self complacent air in which he approached the stand, we thought he was reaning all advanthought he was reaping all advan-

tages in his favor.

He delivered a beautiful, welltimed, and most appropriate speech full of natural eloquence, pathos and burning language. We could not but feel proud of our brother of the quill and he won the well merited applause of the audience and could applause of the audience and could hardly resist the temptation of rising in our seat and acknowledging our compliment by a respectful bow.

Messrs Everett of Concord. Hon.
W. M. Robbins and Bishop Marvin followed Mr. Webster in brief but good speeches. And thus ended the second day's exercises.

DEMOCRATIC CENTRAE COM. MITTEE TO THE PEOPLE OF NORTH CAROLINA.

ROOMS OF THE DEMOCRATIC CON-SERVATIVE CENT'L Ex. Com, RALEIGH, June 1st. '75. To the People of North Carolina: The General Assembly at its recent session called a Convention of the people to meet at Raleigh on the 6th day of September next, for the purpose of suggesting such altera-

tions in our organic law as may be deemed wise and expedient. NECESSITY FOR CHANGE.

The necessity for changing many of the provisions of the existing Constitution is generally admitted, and is too apparent to require extended argument. It is true that some of our prominent men at one time opposed the call for a convention; but their action was based on prudential consideration, and not on an indisposition to have the Constitution thoroughly revised. They feared that our purpose in seeking to reform our Fundamental Law, might be misconstrued by the violent and illinformed men then controlling Congress, and the prosperity of our peo-ple checked, and the peace of the State jeopardized by some barsh and unconstitutional action on the part the United States authorities. That fear no longer exists. We now have every assurance that the Constitution of the United States will be observed by the officers of the Government, and feel a satisfaction in announcing to you that the time has at last arrived when the officials at Washington City concede that the people of North Carolina have the same right to manage their local concerns which the citizens of other States enjoy. We can proceed without apprehension to perfect our Constitution and remodel it in the interests of our people. THE CONSTITUTION, THE CREATURE

OF MILITARY LAW. This Constitution, the creature of

Military dictation, was born in the throes of a Military reconstruction Its authors, were mainly Sciolists and adventurers, who had lived among us without preferment, or possessed of qualifictions entitling them to it; others were our recent slaves, who had known no law save the will of their masters, and others still were carpet-baggers, both black and white-alien in feeling and Radical in education-who sought positions here that were denied them where known-to despoil and humiliate us. And when their work was submitted to the people at the polls, thousands of our best citizens were deprived of the right of voting upon it, and over eighty thousand gnorant negroes were given the ballot to secure its adoption. It is no exaggeration to say that not one person in ten who voted for it could read the instrument, and not one in fifty had read it or was even moderately familiar with its provisions, and many gave it their support beleiving it would be merely tempo-rary, and to escape further agitation and revolution. It is natural there-fore that a Constitution thus formed and adopted should be found unsuit-edt o our condition, and that we should embrace the earliest opportunity consistent with reason and prudence to secure such changes as time and experience have shown to be necessary. Our organic law should be expressed in language clear, simple and perspicuous, so that nothing may be left to inference or construction; our rights, so precisely defined as to be comprehended by all men of is that of a man who thinks he ordinary intelligence; and each debeen ill used, generally, and par-arly when he was taken from be so restricted, that while left free to discharge its appropriate duties, it cannot by unwarranted encroachments embarrass the proper action of

> THE CONSTITUTION UNSUITED TO OUR CONDITION. That the Constitution contains ome good provisions no one denies; it would be singular if it did not but its abominable characteristics were so manifest that not a single Conservative member of the Convention that passed it could be induced to affix his signature to it, as a fit instrument to be submitted to the people. Indeed its provisions are so loosey worded and so badly arranged as to constitute but a medley of inconsistencies that defies the successful coastruction of the courts; in fact, to reconcile the difficulties arising from its practical workings, the court has in ne instances been driven to supply omissions, and in others to introduce a new principle, hitherto unknown in the juridical history of our State, distinguished as "judicial legislation," an innovation anti-republican in character and invasive of the rights and duties of a separate department. Its provisions are so obscure that within the brief space of its existence many more decisions on constitutional questions have been demanded than in the entire previous history of the State—and of late we have witnessed the extraordinary spectacle of two sets of judges in both the 2d and 8th Judicial Districts, contending for the same position one of which claiming to hold by at appointment from the Governor for a period of ten years, an office that the Constitution seems to say is to be

the others.

filled by the people at the polls, and whose term is expressed to be only eight years. In many counties, there is a practical denial of justice, the courts are inadequate to the public demands, and thus they are driven to resort to special terms, which are expensive and unsatisfactory, and persons accused of criminal offenses are often confined for months without trial. We need a speedier justice and a less expensive judiciary system. We should abolish every useless office, which is now filled by a mere consumer; for only by a rigid and prudent economy in our public as well as private affairs, can we hope to restore the State to prosperity. It is believed that the laws will be more impartially administered by a return to the old practice of a rotation of the Judges.

AMENDMENTS TO THE CRIMINAL LAW NECESSARY. It is also hoped that a greater incentive to honesty and a purification of the ballot box might result from depriving those who are convicted of infamous crimes of the elective fran-

The matter of the Penitentiary which already contains more than six hundred able-bodied men, also demands careful and practical attention, to remove in some measure that burden from our shoulders. Most of our private legislation should be excluded from the General Assembly. However, our limited space does not permit us to catalogue the numerous defects and imperfections of the present constitution or to enumerate the remedies to be offered.

There should be some general or-dinance adopted in relation to private enactments, thereby reducing the ex-penses of the Legislature, and in order to prevent hasty and inconsider-ate legislation, that no new

ADDRESS OF THE EXECUTIVE | matters be brought forward within - days of their adjourning.

CAREFUL SELECTION OF DELEGATES. As to the specific changes that ought to be made, these are to be considered by the citizens of the various counties, who should be careful to select as delegates those who will prop-erly reflect their wishes. Men of enlarged and practical statesmanship, spotless integrity, representa-tives of all classes of society, and whose positions among them will entitle their labors to confidence and support—and in their hands they certainly can more safely confide their rights than in the Conven-

METHODS OF CHANGE.

Of the two methods prescribed for changing the Constitution, that by legislative enactment is expensive uncertain and dangerous; the several amendments recently submitted to and ratified by the people encoun-tered the greatest difficulties in their passage, and even after the will of the people was declared in their favor by over 40,000 majority, serious appreiensions were entertained as to whether they were properly adop'ed; again, legislators when possessed of qualifications for such duties, are enenmbered with numerous matters, and cannot bring that attention to each provision presented for consideration, without meeting such criti-

cisms as may imperil their labors. The Convention method is speedy and economical, the body is composed only of the same number of members as comprise the House of Representatives, and their minds are directed alone to constitutional re-forms and their work may be completed and ratified, if necessary, in six months. As to the expenses that may be incurred, it is believed they will be more than defrayed in a short time by the reforms that will be inaugurated.

The restrictions imposed by the Legislature, fully and amply secure the Homestead, Mechanics Lien, Rights of married women, and Presonal Liberty, and should quiet the fears of the most timid, for they are recognized as of binding efficacy and are chiefly enjoyed by the friends of constitutional reform. Indeed they were incorporated in the bill mainly to remove partizan clamor, and antic ipate unscrupulous agitation. They are not the property of a mere party, but had their origin in the necesisties of civilized society and were found among the statutes of various States

previous to the war. QUALIFICATIONS OF DELEGATES. It is useless, however, to seek to quiet the mere caviller; the keen optics of some persons defy all law.— The mere fact that the honor of the best men in the State is pledged to their preservation, should satis-fy every reasonable voter. This Convention is called in pursuance of law, and each delegate before "he shall be permitted to sit, to be entitled to a seat in said Convention or act as a delegate thereto,' shall swear to observe these "restrictions" (see acts 1874 5). Should a part comply and part refuse to take this oath, only those who obey the law are members of the body, nor are we without precedents; similar oath was required of the members of the "restricted Convention" of 1835, the same question was raised, and after debate all the members took the oath and observed the restrictions, and that in a time of high party excitement. In that discussion the distinguised Judge Gaston used the following language: "The State Legislature had indeed no authority to impose an oath upon the members of the Convention, but the people had ratifled the act of the Legislature by choosing delegates under it. If we transcend the limits A Seaside Resort therein prescribed, we are not the Convention called by the people, but a self constituted body;" these views were concurred in by Macon, Edwards, Morehead, and others. will dismiss this subject, however, by calling attention to the able work of Judge Jamieson on "Constitution al Conventions," where, by argument and the cases cited by him in relation to this matter, he demonstrated that Conventions are bound to obey the

restrictions imposed by the Leg-islature in the Act calling the Con-AID FROM REPUBLICANS. In our last election it was gratify ing to see Republicans who had hithscrupulous leaders under a mistaken belief that they were promoting the general welfare, seeing their corruptness as demonstrated by the "Credit Mobilier revelations," "San-Credit Mobilier revelations," born Contracts" and other frauds and defalcations, and their vindictive and relentless policy, whereby they sought to degrade the suwhereby perior race by this iniquitous "Civil Rights Bill," overcome their party prejudice and give us then support. To them we extend an invitation to remain and continue the work so auspiciously begun. To those who opposed us under the de-lusion of their leaders, who assured them this bill would never pass Congress and if it did would be vetoed by the President, though it now has his signature; and who have witnessed the earnestness with which the dangerous "Force Bill" was urged upon Congress, we say no longer remain where there is neither safety nor honor to a North Carolinian. The battle for civil liberty is not yet over. "Civil Rights" is still a part of the secret carpet-bag programme for this State; though driven from the halls of Congress, it will be renewed in the Southern States. We there fore invite their co-operation. The Convention owes its final success to the support of some of their ablest representatives in the General Asembly and they are doubtless aware that the wise provisions introduced into the Convention of 1868, by their ablest native representatives were

their party and confusion to our State NECESSITY OF ORGANIZATION. The friends of Convention should at once perfect their organization and bring out their best men in every Connty in the State. The leaders of the Republican party know that by their reckless violations of the constitution and efforts to centralize all power in the hands of the Federal Government, they have justly for-feited the confidence and support of the people; they therefore trust not to their own strength but to our apathy, and will endeavor to secure our defeat by divisions and false leaders. We therefore respectfully invite their attention to the following resolution

scouted and defeated by that same

element that has brought ruin upon

adopted and successfully followed in our last campaign: Resolved, That we earnestly re-comend to the members of the Democratic Conservative party to discourage independent candidates and all other disorganizers, that all support be promptly withdrawn from every aspirant for office who shall oppose the regular nominees of our Conventions. Let your primary county Conventions be duly advertised and see

that the people have a full opportuni-ty of attending and expressing their wishes. The contest is important not only in its immediate effects but in subsequent results. The Republican party, under the leadership of carpet-baggers still remaining among us, will advocate the election of delegates, who will agree to meet and adjourn without holding a Convention, and this in violation of the wishes of the people, expressed through a twothirds majority of their chosen Representatives, and after a considerable part of the expenses for mileage and per diem is incurred. We believe, how ever the promise is but a delusion and snare, for should they ascertain they have a majority in the body, it will be an easy matter for them, to evade their promise by the refasal of a few to concur; as they do not acknowledge the "restrctions" as binding, they will resort to the most revolutionary measures to sustain their desperate fortunes, and in the end will fail to submit their work to the people for ratification or rejec-

Let us, therefore, present a united front, and with a general advance along our lines Radicalism will not only be routed but overwhelmed, and a victory for Civil Liberty assured

TAKE

SINHON'S LIVER REGULATOR

For all diseases of the Liver, Stomach and Spleen. It is eminently a Family Medicine; and by being kept ready for immediate resort will save many an hour of suffering and many a dollar in time and doctor's bills.

After Forty Years trial it is still receiving the most unqualified testimonials of its virtues from persons of the highest character and responsibility. Eminent physicians commend it as the most

Effectual Specific

for Constipation, Head-ache, Pain in the Should-ers, Dizziness, Sour Sto-mach, bad taste in the mouth, Bilious Attacks, Palpita-tion, of the Heart, Pain in the region of the Kidneys, Despondency, Gloom and for bodings of Evil, all of which are the offspring of a diseased Liver.

If you feel dull, drowsy, de-bilitates, have frequent headache, mouth tastes bad-ly, poor appetite, and tongue coated, you are suffering from TORPID LIVER, or "BILI-OUSNESS," and nothing will cure you so speedily and per-manently.

The LIVER, the largest or-gan in the body, is generally the seat of the disease, and if not regulated in time, great suffering, wretchedness, and DEATH will ensue.

Armed with this ANTIDOTE, all climates and changes of water and food may be faced without fear. As a Remedy in MALARIOUS FEVERS, BOWFL COMPLAINTS, RESTLESSNESS, JAUNDICE, NAUSEA,

J. H. ZEILIN & CO., Macon, Ga., and Philadelphia.

THE SYMPTOMS of Liver Comptaint are uneasiness and pain in the side. Sometimes the pain is in the shoulder, and is MISTAKEN for rheumatism. The stomach is affected with LOSS OF APPETITE and sickness, bowels in general coeffice, sometimes alternating with lax. The HEAD is troubled with pain, and dull, heavy sensation, considerable LOSS OF MEMORY, accompanied with painful sensation of having LEFT UNDONE something which ought to have been done. Often complaining of weakness, DEBILITY, and low spirits. Sometimes MANY of the above symtoms attend the discase, and at other times very FEW of them; but the LIVER is generally the organ most involved.

Nearly all diseases originate from Indigestion and Torpidity of the Liver, and relie is always anxiously sought after. If the Liver is Regulated in its action, health is almost invariably secured. Want of action in the Liver causes Headache, Constipation, Jaundiee, rain in the Shoulders, cough, Chil's, Dizziness, Sour Stomach, bad taste in the mouth, Bilious attacks, Palpitation of the Heart, depression of spirits, or the biues, and a hundred other symptoms, for which SIMMONS' LIVER REGULATOR is the best remedy that has ever been discovered. It sets mildly, effectually, and being a simple vegetable compound, can do no injury in any quantities that it may be taken. It is narmless in every way; it has been used for forly years, and hundreds of the good and great from all parts of the country will vouch for its being the purest and best.

MIDNIGHT DISPATCHES. A TERRIBLE EARTHQUAKE!

Whole Cities Destroyed and Many

Thousands of Lives Lost Within One Moment !

PANAMA, June 4th .- The Royal mail steamship Balize, which arrived at Aspin wall to-day from Savaugillo, brings the following particulars published in an extra of the Barranquilla "Shipping List" of May 29, of a terrible earthquake in Andes:

'The steamer Isabella, which arrived yesterday from the interior, neared our city with her flag at half mast, indicating that she was the bearer of unwelcome news. While there were various conjectures as to its import, none had for a moment pictured the colossal magnitude of the awful calamity which had taken place. The information which has reached us on the subject is contained in a letter dated Salazar, 7 leagues Curcutta, the 19th inst., from which we extract and translate the following: At 11:10 a. m. yesterday the 18th, severe earthquakes visited this city and region. In this city a large part of the church fell, several houses were destroyed and some people killed. The city of Cuicuta is entirely destroyed, only a few families being saved. A German drug store was set on fire by a ball which was thrown out of a yolcans which is constantly belching out lava. This volcano has opened itself in front of autiago in a ridge called El Alto. De Eagiracha San Cayetano was destroyed. Santigo in a larger part. In Gramalote there was great destruction. Arboleda, Cucutilla and San Crastobal are nearly destroyed. The population of these towns is estimated by persons well acquainted in that region more or less as follows: San Cayetona 4,000; Santiago 2,000; Gramalote 3,000; Arboleda 5,000; Cucutilla 5,000; San Crastobal 16,000.

The section of country above referred to embraces regions found about where Colombia and Venezuela join, the Colombian portion embracing the State of Santander. It is in some respects the most productive part of this republic and the coffee of this section is famous all the world over. One of the destroyed cities, San Jose De Cucuta, the city of the most importance of any in that section, was situated on the boundary of the republic Solitude, seven degrees and thirty minutes north, longitude 72 degrees and 10 minutes west, and was founded by Juan De Marten in 1534. It was a port of entry, if an inland town can be called a port; here was established the Custom House. The population of the city at the time of the disaster estimated at about 18,-000. It had large commercial business and was a great depot for coffee and cocoa for shipment.

C. A. HART. BLACKINGS.

A. REAMS & CO. Manufacturers of Reams

DURHAM, N. C. The only Blacking that will POLISH OVER OILED SURFACE

AND Preserve the Leather! Warranted to Excell All Others or Money Refunded!

The only blacking that will polish on oiled surface. It is guaranteed to preserve the leather and make it plish, requiring less quantity and time to produce a perfect gloss than any other, the brush to be applied immediately after putting on the blacking. A perfect gloss from this will not soil even white clothes. We guarantee it as represented, and ask for patronage strictly on its merits.

In testing our blacking use a brush that has no other on it. Prices as low as other Blacking. Liberal arrangements made with merchants and wholes le dealers.

Below we give testimonials of those who have tested our Blacking thoroughly and speak for themselves. These testimonials are from gentlemen well known to the public.

Respectfully,
